## Summer Prices

May 2020

Dear Sir/Madam,

Thank you for your continued custom and hope you are keeping well.

We are all experiencing difficult times due to the Coronavirus and no one is sure what the future has in store.

Summer discounts will still be available from the beginning of May until the end of September with the cheapest prices from May until the end of June.

As ever, we will do our best to fill your bunkers or stack the fuel wherever you need it, not leave it at the front of your property for you to move yourself.

At present, house coal (not smokeless coal i.e. ovals, briquettes etc) in pre-packed plastic bags will be banned for sale from February 2021, so this is the last chance to stock up at a discounted price. House coal will still be available to buy until Feb 2023, but it will only be for delivery and to be tipped loose into a bunker, shed, wheelie bin or similar, there are lots of storage alternatives on the market. The banning of the sale of house coal in plastic bags does not mean the end of your traditional open fire. We are restricted by the government on how we sell house coal.

There are a wide range of smokeless fuels suitable for open fires that will last longer, burn hotter, are more efficient and keep your chimney cleaner than house coal. Please check out our website or call us for more information.

We still have seasoned & kiln dried logs in 0.8m<sup>3</sup> bulk bags or the very handy barrow bags & nets.

Thank you for taking the time to read this letter, stay safe and we hope to hear from you soon.

Many thanks,

*Alan B*

We also have in stock:

- Organic Compost 40 Ltr
- Soil Conditioner (Manure) 40 Ltr
- Fertile Mulch 40 Ltr

Bulk buy discounts available
